ISO9001 - ISO/ IEC 11801 - ANSI/TIA-568-B2

Technical Specifications

8K Ultra HD Support

Enjoy resolutions up to 8K@60Hz, 4K@120Hz, and 2K/1080p@240Hz, making it ideal for high-resolution streaming, gaming, and professional display setups.

48Gbps Super-Speed Bandwidth

Transfers data at ultra-high speed with no lag or signal drop — ensuring flawless transmission of high-bandwidth content.

USB-C to HDMI Direct Connection

Plug-and-play compatibility with no drivers or external power required. Works seamlessly with USB-C laptops, tablets, and smartphones that support DisplayPort Alt Mode.

Gaming-Grade Performance

Compatible with next-gen gaming features like VRR (Variable Refresh Rate), HDR10, Dynamic HDR, and HDCP 2.3 for a smooth, immersive gaming experience.

Crystal-Clear Audio & Video

Supports Dolby Atmos, DTS-HD Master Audio, and True HD 7.1-channel surround sound for a premium audiovisual experience.

Durable Braided Sheath

Designed with a tangle-free nylon braided jacket for extra durability, flexibility, and long life — built to withstand frequent use and travel.

2 Meter Length

Offers extended reach and flexible positioning without signal loss — perfect for work-from-home setups, office use, or entertainment spaces.

Gold-Plated Connectors

Corrosion-resistant and built for maximum conductivity and stable signal transfer.
