RJ45 CAT6A KEYSTONE · SINGLE GANG

NETWORK FACEPLATE · INDOOR SERIES

Faceplate — 1 Input & 2 Input

The Type 86 Faceplate mounts keystone jacks for Ethernet and other network cabling, giving each data connectivity port a clean, standard-size fitting on any wall or Type 86 back box. Available with 1 or 2 ports, it lets multiple connections sit in a single, tidy location — streamlining cable runs and keeping residential and commercial installs looking professional.
